# eSCRIBE
Meetings, Evolved

An End-to-End Meeting Management Solution Built on Microsoft Azure to Boost Efficiency While Addressing Accessibility and Transparency

MICROSOFT AZURE SOLUTION BUILDER PROFILE: eSCRIBE SOFTWARE LTD.

Not just a point-solution, eSCRIBE supports each step of the meeting lifecycle with comprehensive tools and workflows. Compliant with accessibility requirements like WCAG 2.0 and AODA, and seamlessly integrates with Office 365, eSCRIBE improves transparency and reduces resource requirements, so staff can better serve their stakeholders.

WHAT WE OFFER

A MODULAR SOLUTION

eSCRIBE is highly modular, with each module performing key functions before, during and after the meeting.

You buy only what you need, and add other modules as your needs evolve. Our solution grows with your organization.

FAST START BUNDLES

Configuring a new solution to solve a business pain point can be challenging.

That's why we've taken the guess work out of the process with turnkey bundles, including all the support you will need to get up and running in the shortest time possible.

SAVE MONEY
$24,050 in annual efficiency benefits for a medium sized board

SAVE TIME
7 person hours saved a year from meeting preparation tasks

IMPROVED ACCOUNTABILITY & TRANSPARENCY
Document meeting outcomes in a template of a trackable system

ECO-FRIENDLY
100-150 trees saved over 5-years

WHAT OUR CUSTOMERS ARE SAYING

"eSCRIBE catapulted us into the 21st Century! In less than 8 months, we have stopped producing paper copies for meetings. My workload has been drastically reduced!" – Danielle Ross, Executive Assistant, Halton Catholic District School Board

Microsoft | Go-To-Market Services

Microsoft Azure

Microsoft Azure is an open and flexible cloud platform that enables you to quickly build, deploy, scale, and manage applications across a global network of Microsoft data centers. You can build applications using multiple languages, tools, and frameworks.

KEY USE CASES

WEB APPLICATIONS
Build anything from lightweight websites to multi-tier cloud services that scale up as your traffic grows.

CLOUD STORAGE
Rely on geo-redundant cloud storage for backup, archiving, and disaster recovery.

BIG DATA & HPC
Get actionable insights from your data by taking advantage of a fully compatible enterprise-ready Hadoop service.

MOBILE
Accelerate your mobile app development by using a backend hosted on Microsoft Azure. Scale instantly as your install base grows.

MEDIA
Create, manage, and distribute media in the cloud – everything from encoding to content protection to streaming and analytics support.

FLEXIBLE APPLICATION MODEL
Microsoft Azure provides a rich set of application services, including SDKs, caching, messaging, and identity. You can write applications in .NET, PHP, Java, node.js, Python, Ruby, or using open REST protocols. This is all part of Microsoft's promise to let you build using any language, tool, or framework.

ALWAYS ON, ALWAYS HERE
Build resilient applications with automatic operating system and service updating, built-in network load balancing, and geo-redundant storage. Microsoft Azure also proudly delivers a 99.95% monthly SLA. You can rely on decades of experience in data center operations and trust that everything Microsoft Azure offers is backed by industry certifications for security and compliance.

DATA CENTER WITHOUT BOUNDARIES
Microsoft Azure makes it easy for you to integrate your on-premises IT environment with the public cloud. Migrate your virtual machines to Microsoft Azure without the need to convert them to a different format. Use the robust messaging and networking capabilities in Microsoft Azure to deliver hybrid solutions, and then manage your hybrid applications from a single console with Microsoft System Center.

GLOBAL REACH
With data centers around the globe, a massive investment in data center innovation, and a worldwide Content Delivery Network, you can build applications that provide the best experience for users, wherever they are.
